My friends and I love to eat Sushi, so I made up a YingYang soy sauce bowl!
Tell me what you think about it.
I hope you like it

While designing, it was important for me to focus on the meaning of asian numbers and modern design and to combine them with the Ying Yang.
I used 8 edges on the whole design. At the outside-top/bottem, inside, S-shape and at last on the two dots.
If you want a bigger size, just let me know.

It's beautiful.
Mostly people will design a round bowl when using " Ying & Yang ". So the polygon size let your bowl look so special and nice.
