Hi, I have a design that has just been rejected - need help from someone to fix errors with wall thickness. want to resubmit this design today, can pay \$30 for a quick fix!

Please email me: ariellefalk@gmail.com

If those are the only two areas that need fixing, I can do that in the time frame and for the money. The thickening will be 'psudo' but blended in, otherwise, from the looks of it, you'll need to start over.

Ok - Would you be able to take a look at the file to check if it's actually doable (just the few areas need fixing)? Here is the link to model to download the file:
http://www.shapeways.com/model/856772/leaf_2_fix.html?key=b9a75af3bb7b0111d470f11e210da100

Thanks!

The root of every petal/leaf will need thicknening upto to maybe 1 - 1.3mm, and with the physical

texture of the surface, that's not a job for me, sorry.

Hello Bella,

If your still in need of assistance I can get this completed for tomorrow.
Send me a PM and we can talk details.

Regards,
Eric

On the two shell pendant, you could add a stem that attaches from the head to the ring, and the bottom to the ring.

Another route would be going the relief way. I think if you add a bevel, like the edge of a coin it would take away from the cheap look.
