Eyyy- Sexy Lady, Oppa Gandalf style:

Calabash or Wizard style tobacco smoking pipe. Decorational yet also fully functional, this is my first public model. Much thanks to @Michael Mueller for the tips, creator of Skull Tobacco Pipe.

As a 3d printing newbie, accounting for the glaze was by far the most difficult part of the process. However, in the end, the first test model that was printed worked and fit pretty much perfectly. I was very impressed and happy with the smothnesss of the ceramics (no print lines whatsoever) and the even-ness of the 3 legs that it stands on (I was originally concerned it may rock back and forth).
