Hey all!

I'm looking to see if there's any 3D modelers that could help make a Green Lantern ring model in a US size 8. I searched Shapeways and found that someone else has made a model of the ring I'm looking for already but the detail is not exact and the size of the whole model is too small. Here's a pic of the ring:

If any more pictures are needed please let me know!

Thanks
