Good Day!

I am writing to request a quote for a 3-D modeling file that can be sent to Shapeways for production.

A drawing is attached. The material thickness should be 1/4". The material will be ceramic. The basic shape is a cylinder that is open on one end, and closed on the other.

Please let me know if you need any more information. I look forward to receiving your quote!

Thank you,  
Laura

Ceramics are charged by Price Per cm2: \$0.18/cm2 surface area.

Up to max bounding box size of 400mm x+y+z

The size you want is  $203.2 + 203.2 + 152.4 = 558.8$  mm. Surface area is 2479.77 cm2

<http://www.shapeways.com/materials/ceramics>

I have uploaded the file anyway. Maybe you can get it printed elsewhere.
