I ordered some items from your website. Everything was ok, the package, the products, etc. But there is only one thing. Regarding the material "Coral Red Strong & Flexible Polished", probably you know, but when in contact with water or humidity the color fades out.

In our case, if you are wearing a ring and you wash your hands, the color will come off quite quickly. Maybe some improvements can be made regarding inks, etc.

Thanks

Our latest colors and dying process shouldn't run that easily. Email service@shapeways.com and they'll get you fixed up.
