Hello, everyone. My name is Billy, and I am a 3d artist with a decade of experience with 3d art and animation. I am well versed with 3ds Max, Maya, ZBrush, and AutoCAD. I worked for about a year as an architectural draftsman, and I have a lot of experience making 3d models for various different projects.

My online portfolio is: <http://www.billyreiter.com>. Get in touch with me if you want me to model anything, and I'll see what I can do for you. Have a good one.
