I have a need for someone to clean up models and prepare them for 3D printing. I can provide you with sketchup and/or Revit files but need someone who can quickly clean up the surfaces and return the "clean" model to me so I can print it in my 3d printer.

I have several models that I need done...quickly. These models are of 3-6 buildings and 3-6 examples of closeup machinery connections.

Send me a PM if and only if a) you are an expert at this, and b) you can promptly begin work.

Hi, I'd be happy to have a look at your files, please send the Sketchup files to info@dotsan.com
Regards
Vijay
