I want to create a fine detailed shadow box for my wife with all the ordinance she loaded onto the F-18/ F-14 as she was in the navy. I am looking for someone to 3d model the different missiles she used. I have a list if needed, I am new to this so not sure how it works. I would like the missiles to be at about 2 in length x 1/2 width

Hey there,

I'm very capable of doing the job. As a matter of fact: I used to work at the Army Museum, so I'm very into Army objects and I will make them very realistic. If you're interested, I can send you some examples of my work through email.

If you're looking for good work for a fair price: contact me! charlottemarsman@hotmail.com.

Kind regards,

Charlotte Marsman

Hi,
I am a 3D modeler experienced in modeling for both digital and rapid prototyping.
I can be reached at andrew.holdun@gmail.com to discuss your project in greater detail.

Thanks,
Andrew Holdun
