I need a modeler to make ships in about 1/3000 scale and tanks in 1/285 scale

I need to be able to import it into my Autocad program as a .stp file or a .dwg

We have had the best results with Rhino saving the files as .stp.

Please email me at dougbfriend@yahoo.com and email me a .stp file to amke sure it will work, you can send me a 3d model of a cube or any easy object you wish to make sure that the file can be imported by me.

Please send pricing, time to make models, etc.

I have many models to make and need someone committed on a long term basis.

Thanks
