Another successful design by JEEVI. I received my test prints yesterday for the Victorian Railways narrow gauge NM cattle van in 16mm scale (1:19).

These are big models (400 x 100 x 120) and the printing is excellent. I thought this would be really tough for Shapeways to print but it went off without a hitch.

This model is an excellent companion to the VR NU van also designed by JEEVI and is designed to fit JEEVI's 25 'underframe.

Well done JEEVI and Shapeways!

Hopefully there is more to come in the way of NQ, NH, NT and NBB wagons
