My best friend just passed away in a accident at Xgames. I am wanting to see what it would cost for your to create and print a sculpture of him for myself and his family

I am wanting to create an image of Caleb doing a Holygrab on his ATV with his 2013 gear and graphics. I would like Angel wings to be added to his back and a base plate that says RIP Caleb Moore 1987-2013.

I would like the ATV and gear to be specific so no generic stock images. You can base it off a stock image, but it needs to look like his gear and ATV. Looking to create a plastic full color sculpture to be printed. Most likely the prints will be 4-5 inches tall.

Here is exactly what I want described in photos..

Holy Grab shot with his 2013 gear and sled seen in this image, this is the gear, Graphics on the sled, helmet I want used in the image. But of course he will need to be on his ATV in the Shot. Detailed imaged of his gear, helmet and graphics will be linked below.

I like the way his body is positioned in the photo better, he is a little more stretched out

Here are shots of him performing a holygrab stunt on his ATV. This will show you what his ATV needs to look like, but with his 2013 graphic kit and gear set.

Photos of what the ATV needs to look like, but with Calebs 2013 graphic Kit. This ATV is called a Polaris Outlaw if you need to search for more images to reference to.

Here is a link to what his graphic kit looks like.

360 degree photos of the gear he wore-

<http://www.flyracing.com/fly/moto/racewear/gear-lines/evolution-sonar/29/redblackyellow>

Photos of Calebs Helmet will be posted below. Had to break up the post because of the max number of images per post is 10.

Please send your bid, time of completion, and photos of your work to esraustin@aol.com

Had to break up the post because of the max number of images per post is 10. More images below and more photos of his helmet attached

Great shot of caleb on his polair outlaw. I would prefer the ATV to look like this.. (FMF exhaust, red and black wheels) But with his 2013 graphic kit. Notice that he did not run the "stock" Headlight that comes on the ATV from the factory.

Please send your bid, time of completion, and photos of your work to esraustin@aol.com
