Looking for someone to do a 3d drawing for me to be submitted to be made into a toy on this site for my husbands personal collection.

Pretty simple character: 1-rover-1 from Battle of the Planets.

You can see from picture he is pretty simple (antennae not needed but will need raised eyes).

More pics available.

Willing to pay good money through PAYPAL. Provider must have an understanding of the processes of this site as I need it to be a certain size.

Thanks for your time.

Rose
