What size did you want them? Did you want them to look 'quilted'?  
This test model is 3/8" - 9.525mm square, 1.5mm thick. with a 3.5mm eyelet

At the size it is now, it could be any of the 'plastic' materials and silver.

Here's another. My interpretation of '508' Same basic size.

Sure, send the file by PM  
Do you want me to scale the 507 and 508 to 15mm x 12mm? How thick do you want them? 3mm?  
Here is the 508. The corners are rounded because you get what are known as 'degenerated faces  
and edges'

can you send me the 507 as the same file type so i can open it?

Have a couple of questions on getting a large qty?

In an earlier conversation with another person here they said i might b able to have a large amount made and then I could finish them? Like a jeweler would do? If I was interested in that what would be the prices?

thank you  
nicole
