Hi shapeways community

Can i use this place for little brainstorming?

My brother is getting married and i was thinking that i can make something "never seen before" and put it on top of wedding cake, but i am out of inspiration. I went through some models here but still nothing.

They are both architects so maybe something from that area. If you have some ideas. please share them with me. I would appreciate it.

Thank you and have a nice day.
MariÅ¡n

So you're not suggesting your gas station set any more? 60711

Keymaker, how about writing something with small buildings? If you could make the different letters using different buildings by famous architects that might work.

For example, yes. Although to make it 3d printable might be some work...
