Inspired by kingdom hearts, here are the keyblades oathkeeper and oblivion made as tiny as I dare to try. I have them printed in WSF and FUD
available here: <http://www.shapeways.com/model/1009440/oblivion-and-oathkeeper-keyblade.html?li=productBox-search>

I also have a larger version made for msd sized dolls, and it was painted by a friend and a chain and key chain put on.
