Hi, I am a jewelry designer looking for a 3D modeller to help me made models for a handful of jewelry designs to be 3D printed in metal. These are basic designs with no great intricacies involving initials and should not take much time at all. If you are interested in working with me on this project please PM me or email me at [slevinstyle@gmail.com](mailto:slevinstyle@gmail.com). Thank you and I look forward to hearing from you!

Sincerely,  
Samantha
