Hello,

I am looking for someone to build a custom pendent model for my wife. The model will be made from the existing design.

I would like the identical piece in silver but have the lower tail (part that comes around the bottom of the heart) continue and expand into an actual key blade. The key blade will need to fit an actual master mini brass padlock. I will provide a scan of the key for incorporation into the model.

I know it's a small job but if you have time, i'm buying.

Thank you.

Hi there!

Please contact us at contact@designanything3d.com with your design and or ideas and we will get you a quote. We have done many pendants in gold, silver and titanium.

We look forward to hearing from you.
