Hello

Im looking for some help, as I'm not great at this 3D design, but I can do basic things.
I have created a few Metropolitan Chesham Coach bodies on a 3D program which have come out ok, But I am lacking experience on how to do it properly, I have a number of items that I cannot get right:

- Bogies - https://docs.google.com/file/d/0B_s5cq6YuUSwcjBrbTJLUXVKX3c/edit?usp=sharing
(7ft - 28mm wheelbase)
- Roof Vents - https://docs.google.com/file/d/0B_s5cq6YuUSwbGZmTGNCS2tOcUk/edit?usp=sharing
- Buffers - https://docs.google.com/file/d/0B_s5cq6YuUSwbGZmTGNCS2tOcUk/edit?usp=sharing

All of which I have files of, but when I uploaded to Shapeways... lets just say there's a number of things not right or missing.

If anyone can help me at all I would really appreciate any help, as I am an absolute novice...

Thanks to anyone who reply's

I use Google Sketch up. I have used a few other programs, but cannot get my head around them, with Google Sketch up being quite for me user friendly... for someone who doesn't know what they are doing.

I have added some links to the models I have done so far, I have drawings and photos ect... sadly I have run out of talent, if anyone wishes to work together or help, let me know via PM.

Many Thanks
Matt

You're going to need a Sketchup Expert to help you with that one.
