Hi Shapeways fans,

Danger Cube is a more dangerous version of Caution Cube, with more and sharper gears. The outer gears are similar to Timur Evbatyrov's Gear Corner Turning Octahedron. The inner mechanism was cloned from Geared Mixup. This means that all center gears and edge gears can be interchanged.

Watch the YouTube video.

Buy the puzzle at my Shapeways Shop.

Read more at the Twisty Puzzles Forum.

Check out the photos below.

Enjoy!

Oskar
