Hey everyone,

My 1990 W124 Mercedes Benz is a great car, love it, but parts for it are becoming excessively harder to find at the wrecking yard and excessively expensive. I need someone who could be generous enough to create a model of the Windshield Wiper tank, as mine is leaking constantly making it difficult to have my windshield cleaned.

Here are several reference images:

<http://thumbs4.ebaystatic.com/d/l225/m/meL8286ZDUbmqcquEOgJs bA.jpg>

<http://thumbs1.ebaystatic.com/d/l225/m/mg7K1yrCK1NMbfntdcik Yw.jpg>

<http://img12.imageshack.us/img12/7643/dsc08891gr6.jpg>

I eventually want to learn the .cad software well enough to where I can start creating enough models for spare parts for this car so there will never be a shortage again!

Thanks,
Matt

Hi Matt,

There's currently no Shapeways material that'd suitable for a washer tank, S&F Plastic is the closest, except it would need to be sealed with something compatible with screenwash fluid.

Can be done but made by another process,

Paul

In the meantime, put a balloon inside, fixed at the top.
