hello

I am looking for an experienced 3D modeler, to create some models for RC-Copters.
starting model will be a landing gear similar to this one:

<http://www.shapeways.com/model/1021528/dji-phantom-spare-leg-mounts-v2.html>

the models aren't to complex.

priority NÂ° 1 is good experience in modeling for shapeway
for fast easy and timesaving communication, skype is priority NÂ° 2 please.
if you have a shop, that would be nice as well, so I could straight buy the pieces.

looking forward to hear from you,
rgds,
jaQC

thank you every body for all the PMs and offers.
I will come back to you these days.

best,
jaQC

Hi, I have a lot of experience in 3D modeling, I've been doing it for over 25 years. I also was a designer for an aerospace company (Boeing).

I do have a shop <http://www.shapeways.com/shops/offthewall>.

Let me show what I can do, I can model up an item for you for free and if you like I'll quote you a price. I can guarantee you will be the lowest of everyone. I just enjoy modeling.
