Hello everyone! I'm from Shanghai if anyone's in SH too, would like to meet in person!

1) What brings you to Shapeways?

Great interest in 3D printing. I know Shapeways from a book I read and just found the site is awesome!

2) Where are you from?

Shanghai, China. But I did my undergraduate in Illinois, USA. and now work as a consultant in Shanghai.

3) What are your interests or hobbies that you plan on using Shapeways for?

Jewelry. I like metals

4) Your software (Don't have one? Look here for a list of known compatible software!)

Don't have one yet but gonna find one soon.

5) Your experience level

Rookie

Welcome! What book did you read about Shapeways in?

If there's not already a meetup near you, start one up, and if you get a bunch of people to come let us know so we can send goodies.

I read it from The Fabricated: the New World of 3D Printing.

---

I'll check out the meet up thing, thanks for the info.

Sketchup will do! try it. But if you have the \$\$\$, there are plenty of options. This week in the meetup, met a lot of people and learnt about those different software options.

I'm starting with Sketchup right now.

Hope to see your work soon!
