Here is a painted version of my gnome, a client wanted to have his likeness on a gnome!! actually, this was about 5 years ago, I made it (out of clay and then mold and cast with fiber glass) but recently he lost it, so he asked me to make another one for him - I made it again - digitally, (and it took me half the time!!)

And here is a close up of the action figure head I made for him (my client)
