I don't know how widespread the problem is but I've found at least one model that is impossible to comment on.

I just get a scaled down ("ugly-fied") version of the product page with this error message at the bottom of the product description:

```
"  
Critical: Unknown column name (Unknown column 'model_owner' in 'where clause').  
Halted Halted...  
"
```

The model I tried to comment on is david\_alan's "Empty Ring"
