Hi all, I finally got round to finishing my catwoman Mod. I sculpted the head and the cowl as one piece using zbrush and printed off using shapeways white detail, I took apart and sewed together a cat suit and made the corset from scratch - hope you like.

The first set of pics is an attempt to try and recreate the feel of the film.

If any body is interested in buying this shoot me a pm and I will let you know when I will put it up for sale

WOW! The first 2 pics, especially the second, almost look like clips right from the film. Saying Great paint job is an under statement. Amazing work.

Yeah, pretty good damn model, I'd say. Good job with zBrush, too.

many thanks for the kind words

Hi,

Here are some more pics of her - in the daytime!!
