Hi Shapeways fans,

Gear Snake is a concatenation of four 2x2x2 Rubik's Cubes. The puzzle is build around four commercial 2x2x2 Eastsheen cubes. Because of the gears, the four 2x2x2's interact with eachother in a quite unexpected way.

Watch the YouTube video.

Buy the puzzle from my Shapeways Shop.

Read more at the Twisty Puzzles Forum.

Check out the photos below.

Enjoy!

Oskar
