Hello

my name is Eyal & I'm trying to make a file for full color printing with solidworks (2009)  
i read the instructions in your site but for some reason the file type you require is not available in  
Solidworks 2009... can you pleas help me out...

thank you very much

Eyal

Solidworks should have STL export. Solidworks is the CAD program of choice for most 3D printing  
companies.

I deleted your other post, just post once and someone will find it and help you out.
