i would be better if every creation what is made with the creator get a different page or search column where all the creations for the creator are stored....

i wasn't here for 3day's and have to browse a lot of shit to see the real creations people made..

That's an excellent suggestion, thanks!

Bart

we will offer an option to show/hide the creator models in the gallery very soon. We are working on it (together with tons of other stuff of course!)

Thanks for your patience

Peter
