I recently ordered the Shapeways materials samples. It arrived with no problems and I don't have any complains about that. Although I had to pay an extra USD 5 tax because of a missing information in the invoice. Here in Brazil the Customs Service requires the CPF number (a kind of Social Security identification) of the recipient for taxing purposes.

So I suggest adding a new field in the form of identification in the profile. A kind of field for additional information for tax purposes, which must accompany the invoice next to the name of the recipient.

Is it possible?

Kind regards,
