Today the test print of the Open Hand Monument by Le Corbusier arrived.

I am very pleased with the level of detail as some elements are below the mm mark.

All the genius of Le Corbusier in a super crisp 11x9cm model!

... now available at the shop!

Hi lwi,

love the model and details on this!

Thanks for your comment, Ralph.

I'm very pleased with the outcome of this print. First try was the good one!

The SWF material is very impressive as it lets you reduce the scale of a given architectural model to a level that is impossible to achieve with 'traditional' model making techniques.

Keep up the good work!

Regards,

Lwi
