Hello everyone,

I've been experimenting with Shapeways since the beginning of the year, and realise I have not properly introduced myself...

I'm an Architect from Paris, and I've always been making things on the side; lamps, jewellery, etc.

I happen to use 3D packages for work quite regularly, so Shapeways is the natural link between formal concept and physical object, for the whole range of my activities.

Don't hesitate to visit my shop to see what I've been up to!  
<http://www.shapeways.com/shops/alldesigners>

Lwi

Hi lwi, thanks for "formally" introducing yourself. There are a lot of great folks on the forums here, hope you enjoy getting settled in.

Nice to see the French community growing (I live in Vincennes, btw).  
Welcome!

Any other French out there?
