Hello,

I'm Jasper and I come from The Netherlands, in the area of Eindhoven.

Currently I'm graduating for my bachelor degree in Mechanical Engineering. During my study I learned to work with 3D CAD programs such as Solid Works and Solid Edge. I have quite some experience with these programs.

I would be glad to make some 3D models for the users of this forum, so if you think: "Hey, he could make me some 3D models!", feel free to PM me or reply to this topic and I will be in touch with you soon.

I hope I can contribute something to this forum and shapeways.

Jasper.

Welcome Jasper,

If you're looking for work, look in our modelers needed section or think about adding a post to the modelers for hire section.

Can't wait to see what you've got for the community

Mike

Edit: Well I see you have added a post to the modelers for hire section. Please review the guidelines for posting there <http://www.shapeways.com/forum/index.php?t=msg&th=2925&amp;start=0&>. Following these will help people that are interested in what you can do to find you.
