This is my first topic here at Shapeways, though I have been a devoted customer for some time here.

I have other puzzles in my shop, but this one is so beautiful and turned out so well I decided it was time to finally post one of my own products. The stickers were of course obtained elsewhere than Shapeways.

It is available for sale in my shop, but because of the triangle limit it must be purchased in three separate files.

You can read more about it and see some more pictures at [Twistypuzzles](#) forum,

Watch a video.

Look at the pictures

They are not embedded into the message because they are quite large and I am not very computer literate.
