Hi Shapeways fans,

Bramboules is an invention by Bram Cohen, inspired by the Cmetric puzzle. A gearing system enforces that all balls have to be turned in some direction simultaneously. This makes the puzzle quite confusing. Instead of the conventional way of solving a twisty puzzle part by part, this puzzle requires a holistic approach.

Watch the YouTube video.

Buy the puzzle at my Shapeways Shop.

Read more at the Twisty Puzzles Forum.

Check out the photos below.

Enjoy!

Oskar
