I've recently began setting up my own shapeways shop. I'm a member since 2009, but never really used the shop, even if I ordered plenty of items for myself...

I'm trying to set up the shop the right way, with nice pictures of the products, even in several materials...

I've started the jewelry line, but want to branch into table accessories, like candleholders etc... to come in a near future...

I'd love to have the chance for a better exposure of my work as a reward for my the dedication I've given to my shop!

My shop is called comion, so it's easy to remember and kind of reflects the look of the objects, kind of computer generated technology look

Comments and suggestions are also very welcome!
