Hi Shapeways fans,

Squashed Cube looks like a Rubik's Cube after being squeezed together in a vice. The six faces turn sort-of-like a Rubik's Cube, but in a very bandaged - jumbling - way. The middle slices are at an angle of 60 degrees from each other. This way, the hexagons in the center of each face can change position and orientation. This makes this puzzle very hard to solve.

Watch the YouTube video.

Buy the puzzle at my Shapeways Shop.

Read more at the Twisty Puzzles Forum.

Check out the photos below.

Enjoy!

Oskar
