Hello everyone,

I went to school about 10 years ago for 3d Modeling but never found a job for it. Ended up in a corporate environment and found my creativity going to a waste. Then I found Shapeways and this website has renewed my enthusiasm for art and modeling.

I hope to create many new things in the upcoming months, if you have any suggestions or ideas you'd like to see, feel free drop me a line.

You can check my shop out here!

<http://www.shapeways.com/shops/masterworks>

Cheers,  
Seth

Hi gythawen, welcome!

That's some cool steampunk stuff you've got going in your shop. Where are you hailing from?

Thank you Ana! It's good to build something interesting again.

I'm located in Seattle, WA.
