
Subject: Any Advice on Decorative Chrome / Vacuum Metalizing for WSF?

HI - Just received my WSF model from shapeways and looking for advice/leads/suggestions on getting the model chromed decorative silver.

Ideally I would like to find something in NYC but I know that's a stretch.

One company, Mueller, comes highly recommended for vacuum metalizing/chroming, but they have a \$250 minimum.

<http://www.muellercorp.com/decorativechrome.htm>

Thanks
