Here's a look at a recent design made for my sisters. I may need to modify slightly to make sure it will print. The Seahorses are hollow. Still needs a little bit of work. This was a 1-day project. Please contact me if you'd like to work together. ancienteyes@shaw.ca

Hi Matt,
I just wanted to make sure that you got my last email messages.
I like to continue with the last project, and I may have some new work if you're still interested.

I'm a custom knifemaker and I think this might be an incredible way to model knife handles. I have all my knives drawn up in 2D in AutoCad and I'm looking for someone to take it to a 3D model and add textures to it. I will pay the fair price for the help.
