As the title says...

So I sold something... I can see I made a profit on my shop overview page. But how can I tell what model I sold? And how many?

Dolf

To the left of these values on your "my shop" page is a link "order overview"
That is the overview of orders made in your shop.

Url is:

<http://www.shapeways.com/myshop/?myshopuri=/udesign/profile/orderOverview>

Goed bezig trouwens!

Oh, right! Got it... thanks!

and thanks
