I was hoping not to need to ask this question, but I don't clearly understand the details.

Since the discount appears now before finalizing an order, I can't tell what the intention is. Is \$300 USD our limit after the discount, or before?
i.e. cart total<=\$300 or <=\$225?

Hi Loonsbury,

The \$300 limit is after the discount is applied.

Or in your example: cart total<=\$300

Best regards,

Robert
