Kia Ora hello to all you awesome creators,

I was looking for some program to design my own xmas cards & stumbled across shapeways, now I can do a whole lot more. But for me a bit at a time, I am used to making 3d forms by hand so its gonna be a awesome learning.

looking forward to connecting & sharing what I can..

Welcome from Texas!

Lots of free tools to take pictures of a sculpture or live model and import to a SW compatible tool-set.

<http://labs.autodesk.com/technologies/photofly/>

This is not free but looks cool <http://www.photosculpt.net/>

good luck!
