That worked for me to reset a model state:

<http://www.shapeways.com/?uri=/udesign/model/saleStatus&model=<your model number>&isPublic=0&forSale=0>

- 1.) Can anybody please check that
- 2.) Shapeways can you clarify if that interface can be used by experienced designers for our own purpose.

Would allow to generate shop specific interfaces to deal with quick mass changes for our shops.
I.e. materials and pricing which should work similar.
