Hi,

Noticed that a freshly-uploaded models are not buyable. The info tab says it is available for sale via my private link but no such link is found. If I click the boxes that make the file public and buyable by others, then I can buy my part.

Which raises the question in my mind about Shapeway's policy with respect to IP. Does each client retain the rights to their data?

Thanks,
Howard

I can buy my own models while they are "private" and "not for sale"...

Thanks pfeiffer stylez, that works.

The problem was that I had the "Edit Page" toggle set to ON.

Thanks again
