Hey there Shapers!

I'm new here but I'm ready to start a store. I would love any tips and advise when it comes to getting placement and good feedback form my models/designs.

Here is my first model !

http://www.shapeways.com/model/402747/chain_mesh_bowl_6in_.html?key=b5dcea78ae9fac153e5f04f9ded8c896

Please take a look at the attached video that shows how the form was made.

Looking forward to being part of the community

Hi Spacetime and welcome to Shapeways.

The video of your model is very interesting.

I have a question: what prevents your chainmaille to turn flat again once printed? Did you make every link penetrate a little bit its neighbours?

Hey Magic!

Thanks for the comment

You got it, each link intersects at least one other neighboring link. Most of the links intersect three - four of there neighboring links. Most likely going to be ordering a couple for Christmas gifts.

I'm hoping to upload some other models this weekend as well. How can I click through to your page? I just added you as a buddy but it doesn't seem to show me your store?

thanks again

ST

Hey Spacetime,

Me likes the chain bowl, awesome concept!

Paul

Welcome to Shapeways!

Thanks Paul!

I can't seem to click through to yours or magics shops?

On the forum here, when posting the link to the shop is at the bottom or the user info; e.g.

Spacetime

Messages: 4

Go to my shop

Do these links work for you?

Stop4stuff

The Magic Shop

Paul
