Another new creation. Really love this one.
Will be doing a iPhone version of this soon.

Lovely design,

If you have a good photograph (not render) of the finished product as the lead image for your product we can include it on the front page gallery

Cool,

You need to use this image <http://i7.photobucket.com/albums/y288/xxdaggerxx/BlackBerryBeautyShot.jpg>

To ensure we can add the product to the gallery as we do not want renders on the home page.

Thanks
