I'm new to shapeways so first of all let me say hi! My name is Dusty Santos. I'm very excited to be working with the people here.

I've been doing projects for this industry for 5 years now and it seems to be getting harder and harder to find work. I came across this site while looking for freelance jobs and I really like what you do here.

I want to provide my services. Below you will see some of my best work and I have a website as well if you want to see more.

Thanks for looking at my stuff.

Dusty Santos
