who finishes you shapeways ideas with diamants and other precious stone, let me know.

Hallo,

my name is Andreas Wieneke, and i am a goldsmith since more then 26 years, learned in germany and worked for 2 years in L.A./California, 15 years ago now.

So i have a wide range of ideas. not really, only from europe to the u.s. and backwards.

In 3d i am working with ViaCad, in real live with hammer and saw

And i mix it up all the time. And a lot of materials.

my last projekt, still running, is jewelry with concrete.

I make custom made jewelry and also for larger companies only the designs.

It would be nice to hear from you

so long

Andreas
