when I try to upload the youtube clip of my rose turnaround shapeways tells me my video isn't from youtube.

Here is the link:

Here is the message I get:

Is anyone else having this problem?

You need to enter the full YouTube.com link (c&p from your browser address bar, or right click + copy shortcut from your Video Manager page) rather than YT's shortened link.

I don't know why but now it's working. Before when I copied the url from the youtube page it was really long. For some reason it's shorter this time. Maybe youtube just needed time.
